## The Principle

In the grace and love of Christ, we nurture the full development of the children in the area of morality, intelligence, physique, sociality, aesthetics and spirituality.

## For teachers:

## Service Objective

## For Children:

To provide various learning method and experience and to simulate the sense of learning motivation of the children;  
To nurture their learning interest and positive learning attitude;  
To build up their ability of self-management and communication skill;  
To understand the guidance and truth of the Bible for how to love God and mankind;  
For the preparation of a wealthy life.

## For family:

To pay due concern to the children's family need and to maintain close relationship with their families for the common goal of the growth and development of the children.

To provide adequate training to teachers to fulfill their professional teaching role and show due concern to their physical and mental health.

## Educational Goal

To implement suitable and active teaching mode for the children's development, to enlighten their thinking ability and to stimulate their sense of self-motivation in learning to pursuit perfection literally and spiritually.

## Curriculum

The edition of curriculum is applied to the pattern of daily life. Through the training and practice, the children are trained to master their learning and living skill for the development of respectful character. Theme teaching and project approach are applied while 'Shared Book Approach' is as well used in English learning through story reading. For particular situation of using of 2 literal and 3 verbal languages in Hong Kong, foreign and mandarin teachers are deployed for the language lesson for the children to keep up with the education and social need.

## Catering Service

We provide fresh and nutritious meals to children by self-run kitchens. Breakfast, lunch and snack are duly provided to students of full day classes and snack to half day classes.

## Teachers Qualification

The teachers of our organization have attained the professional qualification as recognized by Hong Kong Government. Having a strong sense of mission, our teachers well exercise their teaching technique for the well being of the children. Continuous studying is also applied to teachers to go abreast with the social need.

## Learning Environment

We design an enlightening and adjustable learning environment for stimulation and motivation of the learning interest of the children. In our proper-run friendly and harmonious atmosphere, children are encouraged to learn the mutual help and communication skill. Interest activities classes are as well arranged to explore the potentiality of the children.

## Family and School Co-ordination

The service of our organization is family orientated. Schools and families are subject to a common goal to maintain harmonious and delightful environment for the growth of the children. Besides, school social service is deployed to families in need. Parental meetings, class observation program and talks for working parents are periodically arranged by schools for promotion of school and family relationship and caring technique for children and parents.
